Philad.a January 18.th 1785

Sir

The subscribers being named as a Committee to enquire the particular dementions of a grave or Vault which Doc.r Morgan lately directed to be made in one of the Ales of St. Peters Church. which we from the best information find to be six feet by eight and one half feet, or 51 Squair feet — we find also that two x one half feet by seven or 17½ feet Squair is quite Sufficient for a grave for the larges person, from which it appears that the above grave or Vault occupies three times the space of a Common grave, and are are of opinion ought to be paid for in the proportion of three to one. we are very respectfully —

Sir Your Humble Servants

Wm. Sharp

Jno.s Gurney

Doc.r William White

Rec.d Doc.r Morgan's Acct.
